## Accident and Incident Investigation Policy

### **Purpose**

The purpose of this policy is to ensure the consistent reporting of accidents and incidents related to the company's operations to enable actions that improve safety and operational performance, and for the company to comply with the various regulations as identified in the companies document "Legal Requirements- ISO 45001 & 14001"

### **Scope**

All who work for and on behalf of the organisation have a responsibility to report near misses, adverse incidents and serious incidents, to ensure that the Risk Management Strategy is Effective, and that all statutory reporting requirements, as well as any specific requirements of the principal contractors who we work for are met.

Any Employee of subcontractor who is involved in an incident or near miss must complete an incident report form immediately it is safe / possible to do so.

In order to avoid misunderstanding, the company deem an accident and near-miss to be defined as:-

*Accident:-* "any unplanned event that results in personnel injury or damage to property, plant or equipment.

*Near-miss:-* "an unplanned event which does not cause injury or damage, but could have done so." Examples include: items falling near to personnel, incidents involving vehicles and electrical short-circuits.

### **Statement**

The organisation accepts that things may go wrong and incidents will occur. When this happens, the organisation will respond quickly and positively to ensure the wellbeing of those working for and on behalf of the organisation and the public. We shall investigate incidents to ensure that we learn the lessons and hence improve the quality of our services and promote a safer environment for all.

All who work for or on behalf the organisation have a role to play in identifying and minimising all kinds of risks. The organisation is committed to promoting an open and fair culture where staff feel able to report incidents or near misses and learn from mistakes without fear of recrimination. All sites must have an Accident Book.

### Accident and Investigation Policy

This policy outlines the procedures that are to be adopted when any employee, visitor or contractor experiences an accident, near-miss or dangerous occurrence on the company's premises.

It is the policy of the company to identify and investigate unplanned losses (accidents), their source and hence their underlying causes.

To enable this objective to be achieved it is imperative that all accidents, irrespective of the resulting injury or damage, be reported according to the laid down procedures.

All accidents must be recorded in the company's accident books.

These accident books will be reviewed regularly by senior management to ascertain the nature of incidents which have occurred in the workplace. This review will be in addition to an individual investigation of the circumstances surrounding each incident.

All near-misses must be reported to the Safety Manager, as soon as possible so that action can be taken to investigate the causes and to prevent recurrence.

### Procedures

#### Reporting Procedure for Employees

1. All accidents must be entered in the appropriate Accident Book either by the injured person or, if this is not practical, someone else present at the time.
2. An accident Report form (Part 1 only) is also to be completed by the same person who should then give the form to the Immediate Supervisor of the injured person.
3. The Immediate Superior must then:-

Note that the accident has occurred.

Ensure that the Accident Book has been correctly and fully completed.

Immediately pass the Accident Report form to the Safety Manager.

Ensure that "Injured at Work" is recorded on the timesheet

Email: [info@farncombeconstruction.co.uk](mailto:info@farncombeconstruction.co.uk)

#### 4. The Safety Manager will then:-

Ensure that, where applicable, the requirements of the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 are met.

Complete Part II of the Company Accident Report form, recording the findings of the subsequent investigation.

Discuss the accident and the contributory factors with the Departmental head

Report findings to the Director responsible for Health & Safety and, if necessary, instigate any disciplinary proceedings.

Ensure the Accounts Department have been informed that the accident occurred to enable their procedures to be implemented.

Update the CROO and Corrective action plan documents must be updated accordingly

#### 5. The Director responsible for Health & Safety will then:-

Ensure, so far as reasonably practical, that proper action is taken to help prevent the accident being repeated.

### **N.B.**

1. Investigation of an alleged accident does not necessarily imply that sick pay will be paid. This will depend on the result of the investigation.
2. The above is simply the administrative procedure. Clearly it is essential for all concerned to give priority to the safety and welfare of any injured person and anyone else involved.

### **Reporting Procedures for Visitors / Contractors**

Any non-employee who experiences an accident or near-miss incident whilst on the premises must report the incident immediately to the person responsible for his or her premises on site. If the person responsible is not available, the visitor / contractor must obtain the assistance of a responsible person to ensure that the company procedure is adhered to.

All injuries must be reported in the accident book, however minor. Visitors and contractors who are unable to enter their account into the book must arrange for another person to make an entry on their behalf. Visitors and contractors should also notify their own employer where applicable.

The Company takes the responsibility for notifying reportable accidents under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, therefore the Company's Safety Manager must be informed immediately.

The CROO and Corrective action plan documents must be updated accordingly

## Reporting Procedures – Damage / Theft

All accidents / incidents which result in the loss or damage of plant, equipment or vehicles but not necessarily personal injury must be reported to the Site manager or Safety Manager without delay.

Where this incident results in any injury to a third party the Safety Manager must be informed immediately as it may be necessary to report the incident by telephone to the Health and Safety Executive. Should the Safety Manager not be available, due to annual leave, etc this responsibility will pass to the Health & safety Director.

Where damage to the asset requires repair, or implies a reassessment of the asset as required by the LOLER or PUWER regulations the asset must be removed from use and the asset repaired and reassessed prior to being used. Should there be an investigation into the incident where any asset is damaged during the incident, the asset must be cleared for repair by the enforcing authority prior to being removed from site or a repair being undertaken.

The asset certificate spreadsheet must be updated accordingly.

## Safe System of work

All incidents and near-miss incidents must be reported, however minor. To achieve this the following procedure should be adopted.

1. Ensure the appropriate report form is completed and forwarded to the Safety Manager.
2. Obtain treatment for any injury from a first-aider or the local hospital.
3. Ensure that the area is made safe and poses no risk to other personnel (**except where the accident results in a major injury, in which case the scene should be fenced off and left undisturbed until advised otherwise by the enforcing authority**).
4. Enter details in the accident book.
5. Inform the injured person's manager (or a responsible person) of the incident.
6. Keep the company informed of any after-effects, including periods of incapacity for work.

### Summary

All personnel on site must report accidents and near-miss incidents whilst working on behalf of the company.

The four most important steps are:-

- \* ensure that all relevant details are reported as soon as possible, in accordance with established procedures.
- \* remove residual hazards that may pose a risk to others.
- \* Fence off the undisturbed scene of a serious incident pending investigation.
- \* notify management of incapacity for work that results from an injury sustained during a work activity.
